

BREEDERS EDUCATION SEMINAR

Marj Brooks, Chair....."Breeder Education Committee"

<http://www.breedered.com/marjbio.htm>

COST: \$40.00

and

EXHIBITORS EDUCATION SEMINAR

Michelle Santana, Chair....."Exhibitors Education Committee"

<http://www.breedered.com/santanabio.htm>

COST: \$75.00

Both Seminars will start the two day sessions on **Monday, September 25, 2005 from 8:00 am to 12:00 pm.**

This first day will consist of a study in the.... a) History of the Doberman, b) Proper Temperament, c) Structure, d) Head, e) Movement, f) The Standard.

Theresa Mullen, "Terrylane Dobermans".....will cover the "History" and "The Standard".

Cory McLennan.....will cover "Correct Temperament".

Pete Emily,will cover "Structure".

George Marquis, "Marquis Dobermans"..... will cover "The Head".

Mike Penny, "Paradigm Dobermans".....will cover "Movement".

For the **STANDARD** and **STRUCTURE** portions of this first day, the presenters will use **LIVE DOGS** to demonstrate correct and incorrect structure....how to properly measure dimensions and angles according to the Standard....and how anatomy and physiology relate to correct movement and the problems in movement related to incorrect structure.

BREEDERS EDUCATION SEMINAR

TUESDAY, September 26, 2005

8:00 AM TO 12:00 PM

Theresa Mullen, <http://www.breedered.com/tmullenbio.htm>

will again be presenting the Breeders Education Seminar....."**Becoming A Master Breeder**".

This year she will cover a summary of the topics covered last year, but this years Seminar.....**BECOMING A MASTER BREEDER 202....**will go further in depth on the full range of topics that will help "new" breeders, as well as the "experienced" breeders, expand their knowledge. These include:

Methods/Systems for Evaluation of Structure & Movement
Applying the Standard to the Live Dog

Evaluating & Grading Puppies
Sound Animal Husbandry Practices
Breeding Strategies, Linebreeding, Outcrossing, etc.
Pedigree Analysis, Tail Male and Maternal Families
Understanding the "Dog Sport"
Strategies for Building a Breeding Program
Genetics

We will be using **LIVE DOGS** to illustrate: How to measure angles, lengths of parts, height and length as well as body depth and length of leg according to our STANDARD. Movement and anatomy will be analyzed in the live dog.

Also covered:

What is a *master breeder*, the goal, the tools, pitfalls of breeders to success.

"**Wheel of Success**" which includes 1) Anatomy, physiology and physics, 2) know the Standard, 3) genetics, 4) sound temperament, conformation, and health, 5) Sound animal husbandry practices, 6) socialization, training, conditioning, and 7) understanding the winning edge.

WEDNESDAY Sept. 27 THROUGH SATURDAY Sept. 30, 2006

There will be "**RINGSIDE SEATING**" for all the Seminar Attendees. We will have an area at ringside where we will be able to observe the judging each day and discuss and critique the dogs. Marj Brooks, Theresa Mullen, Mike Penney and various other Mentors that are breeders/exhibitors/handlers/judges will be available and sitting here when not in the ring for Q & A and explanatory discussions.

ALSO as an extra study and at a later determined time we can meet on an evening with Theresa and the committee to discuss sort of like rap-session some of the topics in more detail, such as the maternal families or any other subject that we would like to study in depth.

TUESDAY, September 26, 2006

1:00 PM TO 5:00 PM

Michelle Santana will again be presenting her Exhibitors Education Seminar. She will be assisted by **Mike Penny, Karen DeGrazia-Fox** and **Elaine Hopper**.

This will be an extensive and "hands on" Seminar where these top, successful owner/breeder/handlers will share their experience and "secrets" to presentation, preparation, training and how to achieve the "winning edge".

These Seminars are very informative and have received rave reviews. There will be extensive printed material for all attendees covering the covered material. Last year there were over 100

pages. This year we are hoping to have some of this material related to the history and Mary Rodgers pedigree book and articles on "raising puppies" on a CD.

The presenters represent many years of extensive knowledge and success in the breed. Please take advantage of these Seminars as they are sure to bring new insight and expand your current knowledge base for our collective goal of "Protecting, Preserving and Promoting" our beloved Dobermans.

Marj Brooks, Chair Breeders Education Committee

Michelle Santana, Chair Exhibitors Education Committee

PRE-REGISTRATION

Please pre-register to insure that you will have a spot reserved and this will also help us prepare the printed material that will go along with the Seminars.

Contact and send payments for the Seminars to:

Kathy Moats

3145 RFD Cuba Road

Long Grove, IL. 60047

forleggedfriend@aol.com

Please put **seminar** in the subject line of the e-mail.

Make your check out to the DPCA and please indicate which seminar in the memo line of your check. Also please enclose your name, address and your phone number.

Thank you.
